“Tender for Gender Impact Assessment of MGNREGA-EB Project”

PDF Doc Page No	Reference from ToR	Queries	Response
Page No 1, Point 2	Objective of the Assignment: The MGNREGA-EB Project is coming to a close in March 2019. As women empowerment has been one of the mandates of the project, a gender impact assessment shall be done to understand the impact of these interventions in quantitative and qualitative terms	Since the TOR mentions conduct of <i>Impact Assessment</i> , please confirm if there is any baseline data available for comparison purpose.	<p>Baseline data is available for the indicators that were part of the monitoring framework such as participation of women in Gram Sabha.</p> <p>However, there are newer project interventions that developed over time, which have contributed towards women empowerment in the later stages, such as women in user groups of horticulture block plantations, which will have to be included now.</p>
Page No 2, Point No 3 (1st Paragraph)	The agency would need to look at the material available with the project , as well as visit few of the field sites in the 3 States, interacting with beneficiaries and other stakeholders to understand the impact of project.	What is the extent of secondary data available? What type of documents are available and what type of data has already been collected?	<ul style="list-style-type: none"> • The project is focused on Environmental Benefits through MGNREGA. So most of the secondary documentation available are studies done on improving the NRM focus. This will be useful to understand the focus areas of the project. • We have a detailed gender training module (in Hindi). • We have national level advisories including the project SOP for the prime interventions. • We have few video documentations. • We have coffee table books with success stories from

“Tender for Gender Impact Assessment of MGNREGA-EB Project”

			<p>MGNREGA and our project.</p> <ul style="list-style-type: none"> We collect data on annual basis, which is used for our internal monitoring purposes, and the relevant data for the study can be shared with you.
Page No 2, Point No 3 (2nd Paragraph)	<p>Increased participation of women in Gram Sabha (both attendance as well as active participation) is a prime monitoring indicator for the project. Hence, 02 October 2018 Gram Sabha will have to be attended in at least few of the project sites, and the data available until now will have to be analysed.</p>	<p>Since participation of women in Gram Sabha is a prime monitoring indicator, will a single visit on 2nd October 2018 to the project sites be sufficient? Since additional visits will have cost implications, we would like to have clarity regarding the expectations.</p>	<ul style="list-style-type: none"> As you can notice, we have mentioned various dates for visiting the gram sabha in the 3 States. We have only 13 panchayats, and we would like a few panchayats to be covered for this season's gram sabha on a sample basis. We can finalise this only when we have the gram sabha dates notified. We have quantitative data regarding gram sabha participation from the previous years collected by the project, which can be shared with you. As part of the field visits, there can be further discussions with the MGNREGA workers in the area for qualitative inputs.
Page No 2, Point No 3 (Table)	Table with List of Activities to be covered	<p>Are the list of activities mentioned in the table exhaustive or is this an indicative list</p> <p>In case there is additional</p>	<ul style="list-style-type: none"> Geographic spread is limited to the specified locations. Stakeholders will include MGNREGA workers, MGNREGA
